AUCKLAND HIGH COURT
Cnr Waterloo Quadrant & Parliament Street
Auckland 1010

Dear Judge,

I am a patient under the NZ Mental Health ACT. I assure you, I am not insane, irrational or delusional as my psychiatrist would have you believe. Please believe me. I have suffered from a Memory Disability for most of my life. As a result, I have experienced confusion, but not delusion.

As inconceivable and unfathomable as this may seem, child pregnancy is a phenomena that features prominently in this affidavit, as it has happened to a few of the children who I am additionally reporting about, including myself.

I have a brother named Ernest Patrick Morton who raped me when I was six, and I had two pregnancies to him before the age of 11. Ernest is now an unrepentant practicing Christian Pastor in Kaitaia (last I checked), and he ran for Parliament in 2005 on behalf of Destiny Church. Both Ernest and my other brother Tahi Jnr also known as Carey, have been abusing these of my biological/non biological children in their care – legal and otherwise. Tahi was one of the CYF Approved Care-givers when these children were being raped and abused.

Your Honour, as unbelievable as it sounds, my daughter named Sharlize Morton went through Precocious Puberty at around eight months old. She was later raped when she was two by David Peter McGregor, and he impregnated her. My daughter Sharlize had her baby when she was only three years old, while in the care of a stranger after Sharlize was kidnapped from a Play Group.

I am therefore humbly asking you for a chance to have this case heard in court as my young daughter's life is in need of rescue. Her name is Sharlize Morton, and she was kidnapped at age three by a CYF Approved Caregiver in Orewa during a public Play Group for parents and their children. The woman who kidnapped my daughter claims it was a mistake. She took off all my daughter's clothing, and put it on the little girl that was with her, and vice versa, after she overheard me talking about my daughter being pregnant. She then kidnapped my daughter after I left her (Sharlize) there in the care of another parent who I did not know very well.

Sharlize is now in the Child Youth and Family system somewhere, and her baby, my grandchild, is being raised thus far by the woman who kidnapped my daughter. I can visually identify the woman who kidnapped my daughter, but I'm unsure of her name. I have seen her in community

with my grand daughter, and possibly my daughter Sharlize. I miss them both very much.

There are two doctors and one radiologist from Orewa, who can confirm that an Xray revealed my three year old daughter had a foetus growing inside of her. However, for personal reasons, and for reasons involving a detective who acted in bad faith, both doctors are not forthcoming. The ultimate purpose of this hearing, is to ask you to please direct a thorough Police investigation.

Your Honour, I humbly ask you not to display prejudice toward me for the fact that I am currently a beneficiary looking for work. This case is also about my inheritance left to me by my father over 37 years ago. Due to my memory disability, gross neglect by BNZ and ANZ bank, and also deliberate foul play by Inland Revenue Department, I had my IRD number changed, an act which has for many years, denied me my inheritance. Please be assured Your Honour, that since 1978 I have been paying thousands of tax dollars each year, well in excess of the benefit I have collected from Work and Income Support, which has supported many New Zealand Government Ministries.

This case is about many other children who know me as Mum, who ran away to my home to escape abuse in the CYF's system..., and inside my family..., all whose whereabouts are unknown to me. I love and care for the children who I had the priviledge of knowing, and I believe that a few of them have been in the care of my siblings, possibly extended family also..., where they are still being severely abused, and possibly murdered. I have witnessed injuries and reported them to CYF's, but because of my status under the Mental Health ACT, and even before..., I am not being believed, not even for the sake of these dear and innocent children.

Please kindly be understanding of the critical observations I have made about NZ Authorities, as I have found this country to be a dangerous country to grow up in and live in. Additionally I have been badly ill treated despite being a kind and loving mother to many, including my own children.

I ask you to cast your mind back to a day when genocide and slavery were an accepted practice, and then forward to the days when such abominations were deemed immoral and illegal. Now cast your mind into the future to the moral restoration of indigenous civilisation, and from that future point, we look back on today. A time when landmark cases like this one, helped to put an end to the tyranny that insets the plight of indigenous peoples. Accordingly, if this case is not heard in a New Zealand court, I will submit this case to the World Court.

Your Honour, please find it in your heart to give me a chance to prove to you that the facts of this affidavit are true and correct, (and where I am unsure, I have clearly stated so), and that I am of sound mind and judgement. In order to do this, I am charging Detective Steven Harris with neglect of duty, and acting in bad faith when he investigated this case. It was because of him that I was referred to the Mental Health ACT at age 35, and I have been attacked by a multitude of people ever since. Detective Steven Harris even asked me about my inheritance with BNZ bank, so he knows that my money exists. I'm not sure if he knew about my bonus bonds (sighted), which are worth a considerable sum of money, near millions. The cash amount has been collecting over 37 years of compounding interest.

After Detective Steven Harris declared my case inactive and referred me to Mental Health, I was

attacked by police officers and other members of community, including Mental Health and CYF's.

Please Your Honour..., I will do my utmost to assure you that I am a kind, loving and honest human being who has been through a lot, and kept my integrity, my sanity, and my honour throughout these insurmountable abuses, to the best of my ability.

I have placed a copy of this affidavit on my website globalmaori.info for your added convenience.

Please accept this affidavit Your Honour..., I ask you this for the sake of my children who have been battling the pedophiles named in this affidavit from newborn to date. We need our day in court in the hopes that you will direct a thorough Police investigation into these serious matters.

Yours faithfully,

Nellie Morton
